	•	Vash contaminated clothing before reuse.
		Do not eat, drink or smoke when using this product.
		Persons handling this product and contaminated glassware should have a current tetanus
		accination, and their serum antitoxin level should be greater than 1.0 international unit per nilliliter.
7.2	Precautions To Be Taken	
		Store in accordance with information listed on the product insert.
		he C-fragment comprises the binding portion of intact tetanus toxin and is considered to be
	n	ontoxic. However, since the lethal dose of tetanus toxin in humans is <2.5 ng/kg, contamination
	tł	nis product with less than 0.1% intact toxin could provide enough toxin to cause death in a
	n	onvaccinated person. Use this product with the assumption that a small amount of contamination
	b	y intact tetanus toxin is present.
