Product Information

α-CEHC
Item No. 10007705

CAS Registry No.: 4072-32-6
Formal Name: 3,4-dihydro-6-hydroxy-2,5,7,8-tetramethyl-2H-1-benzopyran-2-propanoic acid

MF: C18H23O4
FW: 278.3
Purity: ≥98%
Stability: ≥2 years at -20°C
Supplied as: A crystalline solid

For long term storage, we suggest that α-CEHC be stored as supplied at -20°C. It should be stable for at least two years. α-CEHC is a crystalline solid. A stock solution may be made by dissolving the α-CEHC in an organic solvent purged with an inert gas. α-CEHC is soluble in organic solvents such as ethanol, DMSO, and dimethyl formamide (DMF). The solubility of α-CEHC in ethanol is approximately 10 mg/ml and 20 mg/ml in DMSO and DMF. α-CEHC is sparingly soluble in aqueous buffers. For maximum solubility in aqueous buffers, α-CEHC should first be dissolved in DMSO and then diluted with the aqueous buffer of choice. α-CEHC has a solubility of approximately 0.25 mg/ml in a 1:1 solution of DMSO:PBS (pH 7.2) using this method. We do not recommend storing the aqueous solution for more than one day.

Molecules having vitamin E antioxidant activity include four tocopherols (α, β, δ, and γ) and four tocotrienols (α, β, δ, and γ).1 α-Tocopherol is the major lipid soluble antioxidant in vivo and protects against lipid peroxidation.2 α-CEHC is the major urinary metabolite of α-tocopherol following vitamin E supplementation.3 The concentration of α-CEHC in human serum is in the range of 5-10 pmol/ml but increases significantly up to 200 pmol/ml upon supplementation with RRR-α-tocopherol. About one-third of the α-CEHC circulating in the blood is present as a glucuronide conjugate.4 α-CEHC is excreted when a threshold concentration of 7-9 μmol α-tocopherol/g total lipid in plasma is exceeded. Therefore, excretion of α-CEHC may be considered to be a marker of optimum vitamin E intake.5

WARNING: THIS PRODUCT IS FOR LABORATORY RESEARCH ONLY; NOT FOR ADMINISTRATION TO HUMANS. NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA
This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Safety Data Sheet, which has been sent to your institution.

WARRANTY AND LIMITATION OF REMEDY
Cayman Chemical Company makes no warranty or guarantee of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals herein. Cayman warrants only to the original customer that the material will meet our specifications in the state of delivery.
Cayman will carry out its delivery obligations with due care and skill. Thus, in no event will Cayman have any obligation or liability, whether in tort (including negligence) or in contract, for any direct, indirect, incidental or consequential damages, even if Cayman is informed about their possible existence. This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, its directors or its employees.

For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog.
