Alendronate (sodium hydrate)
Item No. 13642

CAS Registry No.: 121268-17-5
Formal Name: PP'-[(4-amino-1-hydroxybutylidene)bis-phosphonic acid, monosodium salt trihydrate (1:1:3)
Synonyms: Adronat, Fosamax, G-704650, MK-217
MF: C_{32}H_{32}N_{2}O_{10}P_{2} • H_{2}NaO_{3}
FW: 325.1
Purity: ≥95%
Stability: ≥2 years at -20°C
Supplied as: A crystalline solid

Laboratory Procedures

For long term storage, we suggest that alendronate (sodium hydrate) be stored as supplied at -20°C. It should be stable for at least two years.

Alendronate (sodium hydrate) is supplied as a crystalline solid. Alendronate (sodium hydrate) is sparingly soluble in organic solvents such as ethanol, DMSO, and dimethyl formamide. For biological experiments, we suggest that organic solvent-free aqueous solutions of alendronate (sodium hydrate) be prepared by directly dissolving the alendronate (sodium hydrate) compound in aqueous buffers. The solubility of alendronate (sodium hydrate) in PBS, pH 7.2, is approximately 0.25 mg/ml. We do not recommend storing the aqueous solution for more than one day.

Bisphosphonates bind strongly to bone and reduce bone resorption through effects on both osteoclasts and osteoblasts.\(^\text{1,2}\) Alendronate is a nitrogen-containing bisphosphonate that is commonly used in the treatment of osteoporosis and other metabolic bone diseases.\(^\text{3-5}\) It inhibits bone resorption \textit{in vitro} with an IC\(_{50}\) value of 2 nM.\(^\text{1}\) \textit{In vivo}, alendronate significantly increases (or prevents a decrease in) bone mineral density and reduces vertebral fractures.\(^\text{4,6}\)

MATERIAL SAFETY DATA

This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Material Safety Data Sheet, which has been sent to you upon request.

WARRANTY AND LIMITATION OF REMEDY

Cayman Chemical Company makes no warranty or guarantee of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman warrants only to the original customer that the material will meet our specifications at the time of delivery.

Cayman will carry out its delivery obligations with due care and skill. Thus, in no event will Cayman have any obligation or liability, whether in tort (including negligence) or in contract, for any direct, indirect, incidental or consequential damages, even if Cayman is informed about their possible existence.

This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, its directors or its employees.

Buyer's exclusive remedy and Cayman's sole liability hereunder shall be limited to a refund of the purchase price, or at Cayman's option, the replacement, at no cost to Buyer, of all material that does not meet our specifications.

For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog. Copyright Cayman Chemical Company, 01/27/2011
