**PRODUCT INFORMATION**

**PPQ-102**  
*Item No. 16275*

**CAS Registry No.:** 931706-15-9  
**Formal Name:** 6,7-dihydro-7,9-dimethyl-6-(5-methyl-2-furanyl)-11-phenyl-pyrimido[4′,5′:3,4]pyrrolo[1,2-a]quinoxaline-8,10(5H,9)-dione  
**Synonyms:** CFTR Inhibitor IV, Cystic Fibrosis Transmembrane Conductance Regulator Inhibitor IV

**MF:** C_{26}H_{22}N_{4}O_{3}  
**FW:** 438.5  
**Purity:** ≥95%  
**Stability:** ≥2 years at -20°C  
**Supplied as:** A crystalline solid  
**UV/Vis.:** \( \lambda_{\text{max}} \): 211, 329 nm

**Laboratory Procedures**

For long term storage, we suggest that PPQ-102 be stored as supplied at -20°C. It should be stable for at least two years.

PPQ-102 is supplied as a crystalline solid. A stock solution may be made by dissolving the PPQ-102 in the solvent of choice. PPQ-102 is soluble in dimethyl formamide at a concentration of approximately 0.2 mg/ml.

PPQ-102 is sparingly soluble in aqueous solutions. To enhance aqueous solubility, dilute the organic solvent solution into aqueous buffers or isotonic saline. If performing biological experiments, ensure the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. We do not recommend storing the aqueous solution for more than one day.

**Description**

The cystic fibrosis (CF) gene encodes a cAMP-regulated chloride channel, the CF transmembrane conductance regulator (CFTR). PPQ-102 is a cell-permeable pyrimido-pyrrolo-quinoxalinedione that reversibly inhibits CFTR chloride channels with an IC_{50} value of 90 nM.\(^1\) At 0.5-5 µM, PPQ-102 has been used to reduce the size and number of renal cysts in a neonatal kidney organ culture model of polycystic kidney disease.\(^3\) At 1 µM, PPQ-102 can increase vascular endothelial growth factor-A production in cultured airway epithelial NCI-H292 cells, triggering epidermal growth factor receptor phosphorylation.\(^2\)

**WARNING**

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

**SAFETY DATA**

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

**WARRANTY AND LIMITATION OF REMEDY**

Buyer agrees to purchase the material subject to Cayman’s Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
