**Toceranib**

**Item No. 17714**

**CAS Registry No.:** 356068-94-5

**Formal Name:** 5-[(Z)-(5-fluoro-1,2-dihydro-2-oxo-3H-indol-3-ylidene)methyl]-2,4-dimethyl-N-[2-(1-pyrolidinyl)ethyl]-1H-pyrole-3-carboxamide

**Synonyms:** PHA 291639, SU11654

**MF:** C_{22}H_{25}FN_{4}O_{2}

**FW:** 396.5

**Purity:** ≥95%

**Stability:** ≥2 years at -20°C

**Supplied as:** A crystalline solid

**UV/Vis.:** λ_{max}: 267, 430 nm

**Laboratory Procedures**

For long term storage, we suggest that toceranib be stored as supplied at -20°C. It should be stable for at least two years. Toceranib is supplied as a crystalline solid. A stock solution may be made by dissolving the toceranib in the solvent of choice. Toceranib is soluble in organic solvents such as DMSO and dimethyl formamide, which should be purged with an inert gas. The solubility of toceranib in these solvents is approximately 0.5 and 0.25 mg/ml, respectively.

Toceranib is sparingly soluble in aqueous solutions. To enhance aqueous solubility, dilute the organic solvent solution into aqueous buffers or isotonic saline. If performing biological experiments, ensure the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. We do not recommend storing the aqueous solution for more than one day.

Toceranib is a small molecule, multi-targeted receptor tyrosine kinase inhibitor that is structurally related to sunitinib (Item No. 13159). It potently inhibits signaling through VEGFR, FGFR, PDGFR, and Kit. Moreover, toceranib blocks the autophosphorylation of both wild type and mutant forms of Kit in response to stem cell factor, resulting in cell death. It is active in vivo and is commonly used against solid tumors in dogs.

**SAFETY DATA**

This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

**WARRANTY AND LIMITATION OF REMEDY**

Cayman Chemical Company makes no warranty or guarantee of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman warrants only to the original customer that the material will meet our specifications at the time of delivery. Cayman will carry out its delivery obligations with due care and skill. Thus, in no event will Cayman have any obligation or liability, whether in tort (including negligence) or in contract, for any direct, indirect, incidental or consequential damages, even if Cayman is informed about their possible existence.

This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, its directors or its employees. Buyer’s exclusive remedy and Cayman’s sole liability hereunder shall be limited to a refund of the purchase price, or at Cayman’s option, the discount, at no cost to Buyer, of all material that does not meet our specifications.

Said refund or replacement is conditioned on Buyer giving written notice to Cayman within thirty (30) days after arrival of the material at its destination. Failure of Buyer to give said notice within thirty (30) days shall constitute a waiver by Buyer of all claims hereunder with respect to said material.

For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog.
