Naringin

Item No. 17923

CAS Registry No.: 10236-47-2
Formal Name: (2S)-7-[(2-O-(6-deoxy-α-L-mannopyranosyl)-β-D-glucopyranosyl)oxy]-2,3-dihydro-5-hydroxy-2-(4-hydroxyphenyl)-4H-1-benzopyran-4-one

Synonym: NSC 5548
MF: C_{71}H_{82}O_{14}
FW: 580.5
Purity: ≥95%
Stability: ≥2 years at -20°C
Supplied as: A crystalline solid
UV/Vis.: λ_{max}: 214, 226, 283, 329 nm

Laboratory Procedures

For long term storage, we suggest that naringin be stored as supplied at -20°C. It should be stable for at least two years.

Naringin is supplied as a crystalline solid. A stock solution may be made by dissolving the naringin in the solvent of choice. Naringin is soluble in organic solvents such as ethanol, DMSO, and dimethyl formamide (DMF), which should be purified with an inert gas. The solubility of naringin in these solvents is approximately 1, 10, and 20 mg/ml, respectively.

Naringin is sparingly soluble in aqueous buffers. For maximum solubility in aqueous buffers, naringin should first be dissolved in DMF and then diluted with the aqueous buffer of choice. Naringin has a solubility of approximately 0.5 mg/ml in a 1:1 solution of DMF:PBS (pH 7.2) using this method. We do not recommend storing the aqueous solution for more than one day.

Description

Naringenin (Item No. 14173) is a citrus-derived flavonoid that inhibits cytochrome P450 (CYP) 3A4 activity in human liver microsomes (IC_{50} = 139-188 μM). Naringin is a natural flavanone glycoside formed from naringenin and neohesperidose. It undergoes extensive metabolism in the liver, giving rise to naringenin and other bioactive metabolites that have anti-oxidant, anti-inflammatory, and anti-apoptotic effects. Naringin is a weak inhibitor of CYP3A4, providing 14% inhibition at 200 μM. It suppresses apoptosis in neurons and increases the expression of neurotrophic factor in dopaminergic neurons, providing neuroprotection.

WARNING: THIS PRODUCT IS FOR LABORATORY RESEARCH ONLY: NOT FOR ADMINISTRATION TO HUMANS. NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wade photographly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Cayman Chemical Company makes no warranty or guarantee of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman warrants only to the original customer that the material will meet our specifications at the time of delivery. Cayman will carry out its delivery obligations with due care and skill. Thus, in no event will Cayman have any obligation or liability, whether in tort (including negligence) or in contract, for any direct, indirect, incidental or consequential damages, even if Cayman is informed about their possible existence.

This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, its directors or its employees.

Buyer’s exclusive remedy and Cayman’s sole liability hereunder shall be limited to a refund of the purchase price, or to Cayman’s option, the replacement, at no cost to Buyer, of all material that does not meet our specifications.

For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog.
