Prostaglandin E₂-d₄

CAS Registry No.: 34210-10-1
Formal Name: 9-oxo-11α,15S-dihydroxy-prosta-5Z,13E-dien-1-oic-3,3',4,4'-d₄ acid
Synonyms: Dinoprostone-d₄, PGE-d₄
MF: C₂₀H₂₈D₄O₅
FW: 356.5
Chemical Purity: ≥99% deuterated forms (d₁-d₄); ≤1% d₀
Deuterium Incorporation: ≥99% deuterated forms (d₁-d₄); ≤1% d₀
Stability: ≥1 year at -20°C
Supplied as: A solution in methyl acetate

Laboratory Procedures

Prostaglandin E₂-d₄ (PGE₂-d₄) contains four deuterium atoms at the 3, 3’, 4, and 4’ positions. It is intended for use as an internal standard for the quantification of PGE₂ by GC- or LC-mass spectrometry (MS). For long term storage, we suggest that PGE₂-d₄ be stored as supplied at -20°C. It should be stable for at least one year. PGE₂-d₄ is supplied as a solution in methyl acetate. To change the solvent, simply evaporate the methyl acetate under a gentle stream of nitrogen and immediately add the solvent of choice. Solvents such as ethanol, DMSO, and dimethyl formamide purged with an inert gas can be used. The solubility of PGE₂-d₄ in these solvents is approximately 100 mg/ml.

PGE₂-d₄ is used as an internal standard for the quantification of PGE₂ by stable isotope dilution MS. The accuracy of the sample weight in this vial is between 5% over and 2% under the weight indicated on the vial. If better precision is required, the deuterated standard should be quantitated against a more precisely weighed unlabeled standard PGE₂ by constructing a standard curve of peak intensity ratios (deuterated versus unlabeled). PGE₂ is one of the primary cyclooxygenase products of arachidonic acid and one of the most widely investigated PGs. Its activity influences inflammation, fertility and parturition, gastric mucosal integrity, and immune modulation. The effects of PGE₂ are transduced by at least four distinct receptors designated EP₁, EP₂, EP₃, and EP₄. The affinity constants (Kᵢ) of PGE₂ for these receptors range from 1-10 nM depending on the receptor subtype and tissue.

**SAFETY DATA**
This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

**WARRANTY AND LIMITATION OF REMEDY**
Cayman Chemical Company makes no warranty or guarantee of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman warrants only to the original customer that the material will meet our specifications, as defined in these specifications, which includes our delivery obligations with due care and skill. Thus, in no event will Cayman have any obligation or liability, whether in tort (including negligence) or in contract, for any direct, indirect, incidental or consequential damages, even if Cayman is informed about their possible existence. Buyer’s exclusive remedy and Cayman’s sole liability hereunder shall be limited to a refund of the purchase price, or at Cayman’s option, the replacement, at no cost to Buyer, of all material that does not meet our specifications.

For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog.
